## DORSEY'S DISCLOSURES

The Ex-Senator to Appear Before the Springer Committee.

He Will Go to Washington With a Letter-File Under His Arm—President Arthur and Attorney-General Brewster to Be Compromised—Gigantic Cattle Rings.

By Telegram to the Post-Dispatch.  
WASHINGTON, April 1.—There is a great deal of talk here over the anticipated arrival of ex-Senator Dorsey. He has been summoned to appear before the Springer Committee, and already several who are interested in his proposed disclosures have gone West to head him off and, if possible, anticipate what he is going to say. A gentleman who has had access to Dorsey's letter book in the past, says he has a huge memorandum book of receipts and disbursements during the last Presidential campaign, and a letter book containing a number of interesting epistles. It is understood that Dorsey has really held back all of his disclosures from the eye of the campaign with a definite purpose. He will come to Washington to meet these particular men. First, it is claimed that he will be able to show enough about Arthur's part in the matter to cause the president to bow him out as a candidate. It is said that Dorsey can show that Arthur knew of the agreement made in the interest of Stanley Matthews and he personally received \$10,000 of the subscription fund from C. F. Bengtson, and that he transmitted this money to Indiana. At any rate Dorsey's friends say that the agreement will be so completely shown by that the impeachment of Justice Matthews will be warranted and that the scandal will end the political fortunes of all those connected with it. Then the Attorney-General is another object of Dorsey's wrath. He has been working hard for evidence against him and thinks he will show his connection with Bradley, and how Bradley secured immunity for his Star Route friends. Mr. Springer is very reticent, but he was never so well satisfied with his investigation as at the present time. If there was not some truth in all this, such earnest efforts would not be made to head off Dorsey. Some of the Republicans now say that Dorsey will never deliver a line of his kind in the history of the country. He has in his possession in the wilds of Washington the most complete and reliable information he has on hand and will tell all he knows. He has already submitted enough in advance to make his silence practically valueless to those interested.

## UNRELIABLE LEADERS.

The Work of Two Bad Negroes in Georgia—A Story Detailed.

By Telegram to the Post-Dispatch.  
SAVANNAH, Ga., April 1.—It having been telegraphed north and west on Saturday night that in Savannah there was a fearful springing of negroes, and that an attempt had been made to massacre all the white people in the town, a county newspaper representative put himself in communication with trustworthy sources of information. The result was the development of the fact that the statement above quoted was wholly false in its character. The truth is briefly this: For several weeks two negroes, T. M. Smith and R. H. Clark, have been in Jones and Baldwin Counties, making incendiary speeches to the negroes, exhorting them to riot. Smith took French Creek while the sheriff of Baldwin County was trying to arrest him, and he was shot and killed. Clark insisted before the crowd of colored people that he was a white man, and would put him in the chain gang for a year. When asked by what authority he replied: "The authority is in the hands of the white people, and when they want to, they can do as they please." He then went to Washington, the county in which he was situated. The negroes were made the most of, and he was so far from the negroes following their lead as to have them held a public meeting, at which they passed resolutions to the effect that they would not be disturbed by the public peace, and would meet out punishment even to colored agitators. From this it will be seen that the colored man deserves the credit of having been the author of good citizenship. On Saturday night there was a curious incident. There is no indication of a disturbance here. I sent for ammunition, simply out of caution. From this it will be seen that there is no fear of a colored riot in Georgia.

## CITIZENS OF CINCINNATI.

Willing to Serve the City for the City's Good.

CINCINNATI, April 1.—A. M.—The municipal Reform Association, composed of citizens of all parties, have issued a manifesto to the voters of the city stating that they believed the occurrence of the past few days more than ever demand a severance of party politics in the management of the city, and also stating that they will play in nomination for the various offices to be filled at the approaching municipal election men of irreproachable integrity and undoubted qualifications for the position who have consistently accepted the nominations merely from a consideration of public duty. They are selected without regard to political party, and good citizens are called upon to unite with the association in the attempt to place pure and reliable men in charge of the city government. The association has determined to call a mass meeting at Main Hall soon to rally their forces.

## Window Glass Manufacturers.

PITTSBURGH, Pa., April 1.—A committee of the Western window glass manufacturers met here today to fix the rate for the coming season. The manufacturers have stopped selling glass at the old price, and the men are allowed to sell where they choose. They also insist that drivers be paid \$1 75 per day.

## Quits Work this Morning.

OSCEOLA, Pa., April 1.—The coal miners of the Clearfield region stopped work this morning. They will accept a reduction of their wages to \$1 50 per ton, and the men are allowed to sell where they choose. They also insist that drivers be paid \$1 75 per day.

## The Champion Chess-Player.
